Given Greg's legislative calendar, perhaps we can set up a NV call for June.

Subject: RE: next week

Thanks Alexis. Yes I am planning to be out there next week and look forward to catching up and discussing progress on Anaconda. Although we are all learning from the newspapers and leaks at this point, it will probably be worth to also compare notes on budget news and impacts.

I like your idea of setting up some regular times to check in. Let me consider who should participate from our side and I'll get back to you on starting those up. Thank you for offering.

Legislature lasts until first week of June and is hot and heavy right now, with bills/testimony coming out of our ears, but we are managing ok so far. Brad will not be making it out to DC next week, mostly due to the session.

See you soon,
Greg

Greg,
I look forward to seeing you at ECOS next week, if your schedule still allows (I can't recall when the Legislature wraps up its session). Let me know if we should have any one-on-one discussions about NV/EPA matters; I'd be interested in your sense of how things are progressing vis-à-vis Anaconda. I'm also writing to ask if you'd find it useful for us to convene monthly or bimonthly conference calls, e.g. for an hour, of our executive teams, to just check in on top issues and keep current. If this would be helpful, I'd be glad to work with your assistant to set up the first call.
Kind regards,
Alexis
